Jon and Becky Liles

Just Outside of Rome, Italy

Jon's Upcoming Trip to Rome

Please pray for Jon as he travels to Rome this month. We need to renew our permission to stay, a process which happens every 2 years. We are in the last cycle of this process and if successful, we can apply for permanent papers next renewal. **Please pray** Jon can successfully renew our permission to stay in Italy. Lord willing, we will also be moving back into our apartment in Rome. Keeping this home means we get to keep our permission to stay. The Lord provided some great friends to sublet this while we have been stateside. **Please pray** that they are able to move into their new home soon! They are waiting on some local utilities and wading through Italian bureacracy. Fast and pray if you know what I mean! Lastly, we had to make the very difficult decision to close our current City House location. We could not justify another year of rent while being stateside for medical issues. The landlord also asked us to consider moving out and willingly let us go without penalty. The plan is to reopen City House next year in a new location. **Please pray** the Lord uses the many seeds of Gospel planted through this ministry to bring our friends in Italy to Christ. Thank you for PRAYING!

Becky was diagnosed with triple negative, stage 3, aggressive ductal carcinoma on her left side in May. **Please pray** she will be healed. We are currently in Springfield, Missouri with family and our home church caring for her. She has undergone her first set of chemotherapy and has entered the second set. She has already experienced an allergic reaction to this therapy in her first session. **Please pray** the oncologist involved will be able to find a way to help her body receive this treatment. We are researching options for a unilateral mastectomy which will most likely take place in December. **Please pray** for wisdom in choosing the best surgeon for this procedure. From there she will receive 27 more weeks of chemotherapy and radiation. **Please pray** for a complete removal of all cancer. That is the plan for now. The tumor has shrunk and hopefully this surgery will remove all remaining cancer. Her PET scan did not discover any metastasis. Chemotherapy has produced the typical side affects. It is brutal. **Please pray** her sprit will endure this excruciating process. We have had the opportunity to meet many unbelievers in this process. **Please pray** Jesus will be honored through our suffering and that our new friends will be saved. We are so grateful to our families, our home church, and many of you who have reached out with cards, food, books, socks, financial encouragement and especially your prayers. **Your love draws us closer to Jesus.**
